

# LISTENING to the Artist's Voice

## TOKEN RESPONSE 2.0

### Asking Engaging Questions

Artists balance many factors as they gather and generate ideas and make their art. Choose three tokens and formulate three questions to ask about an artist and their artwork. Base your questions on what you see and/or how you think the artwork was made. Circle your chosen tokens.

### Hints:

*Learning about the artist and their work can help you ask better questions, for example, an artist's statement, key life experiences, and basic information about an individual work of art. Be specific. If you ask easy questions, you are going to get easy answers. If you ask thoughtful questions, you are going to get rich answers. Avoid questions that can be answered with one-word answers.*
